**Subject:** Ambient Air Sampling Event

Bhooma,

We are planning on completing the second Ambient Air sampling event surrounding the on-Site groundwater treatment system next week. We will generally follow the same sampling protocol as the initial sampling event. Based on concerns following the initial sampling event, we will add a second sampling location on the east side of the site. Let us know if IDEM would need to be notified (since they were on-site during the last sampling event).

Per discussions with the USEPA, we will shut down the system vapor treatment during the sampling event.

Please let us know if you have any questions.

Thanks,

Christopher D. Parks, LPG
